

# THE LITTLE STAR

that could

ISU PLANETARIUM  
MARCH 26 • 10–11 AM

Meet us at the ISU planetarium on this day off school to experience a free planetarium show! *The Little Star That Could* is the story of an average yellow star searching for planets of his own. Along his way, Little Star encounters other stars, learns what makes each star special, and discovers that stars can combine to form clusters and galaxies. Everyone will learn basic information about the planets and our solar system!

✓ Registration is required for this event. Register on our online calendar, at 309.452.1757 or at the Front Desk.

NASA@ My Library. The following info needs to be included under the event description on the calendar and in the activity guide: The NASA@ My Library project is led by the National Center for Interactive Learning at the Space Science Institute. Partners include the American Library Association (ALA) Public Programs Office, Pacific Science Center, Cornerstones of Science, and Education Development Center. NASA@ My Library is made possible through the support of the National Aeronautics and Space Administration (NASA) Science Mission Directorate as part of its STEM Activation program.
